

QUALITY POLICY STATEMENT

At Precision Plastics Limited, we are committed to the manufacture of automotive battery casings, general & disposable plastic products for industrial and domestic applications that meet and exceed customers' and other interested parties' requirements.

We shall achieve this through establishment of corporate strategic plan and quality objectives at relevant functional levels and by meeting applicable (statutory, regulatory, interested parties including customers' and ISO 9001:2015 Standard) requirements.

To measure the suitability and effectiveness of the quality management system, we shall evaluate its performance through internal audits and management reviews as a basis for continual improvement and customer satisfaction enhancement.
